

IFFR Members Leading the Way

Rotary and flying have been linked since the invention of the airplane.... Orville Wright, the first person to “fly”, was a long-time member of the Rotary Club of Dayton, Ohio. Since the founding of IFFR, members have stepped up to play leadership roles in Rotary. We are building a data base to acknowledge the Rotary service by so many IFFR members in the Americas Region. That data base is on our website www.ifframericas.org (on the home page, go to NEWS and the first article about “IFFR members who are active in Rotary Leadership” and click on “List”). [Tony:Put a link directly to it]. If your name has not yet been entered, or you know of someone else whose name is omitted, let us know at gchaffey@Littler.com . So far, we know that at least 66 Americas members have served as Club President, and at least 24 members have served as District Governor. , and that We’ll list here those who have served in just Club President and District Governor, but there are dozens of members have served in many, many ways and on many projects and activities, as recorded on our website. Check it out.

Club President

Alaska: Craig Bledsoe, Harry Kieling, Phil Livingston, Diane Livingston, Dick Sutliff.
